EVERYTHING YOU NEED TO MAKE A REAL IMPACT

We don't do things by halves. From huge, wall-to-wall screens to advanced Dolby Atmos sound systems, we'll make sure your delegates are completely immersed in your event. So, whether you're holding a sales presentation, product launch, award ceremony, conference or training session, you'll have an audience that's engaged, enthused and with you all the way.

Each of our comfortable auditoriums is perfect for presentations, with seating for up to 500 people, unobstructed views and stage areas for guest speakers or panels. You'll have all the technical support you need to link your laptop, tablet, DVD or Blu-ray to our incredible systems and wireless microphones, bringing your big ideas to the big screen in impressive style.

When it's time to take a break or split into smaller groups, our sizable lobbies, bars, lounges and meeting rooms offer all the space you need to network – or get down to work. We can even round the day off with a private film screening, from the latest releases to classic movies that complement the theme of your event.

FIRST-CLASS SPACES TO CALL YOUR OWN

From when your guests arrive to the moment they leave, we'll help you create a great impression. Our spacious lobbies are perfect for welcome drinks, canapés and music, with space to catch up, network and enjoy an unforgettable experience.

Whatever you'd like to achieve, we'll help you set the scene, with attractive spaces for exhibitions, brand awareness and stunning product displays. And if you'd like to break out into groups, or even just come to us for smaller team meetings, we've got the perfect space for that too.

Our sleek, modern meeting rooms can host up to 20 people, with digital HD monitors, screen projectors, A-frame boards and comfortable, contemporary furniture, with a bespoke menu of food and refreshments available.

GROUND BREAKING NEW CINEMA TECHNOLOGY

Events are about capturing imaginations, telling stories and creating loyalty. They're about bringing big ideas to life - giving people new perspectives, intentions and motivations. They're your opportunity to really wow your audience and, at Showcase, we won't let you down.

We've developed industry-leading technologies that make the cinema experience more immersive and compelling than ever - like Showcase XPlus. Combining next-generation wall-to-wall screens with advanced Sony 4k digital projectors or Barco laser projectors, XPlus creates our purest, brightest picture ever, for crystal clear definition in both 2D and jaw-dropping 3D.

Completing the XPlus experience, our innovative Dolby Atmos 360° sound

systems create an infinite field of sound around your audience, giving them a breathtaking, multidimensional listening experience.

We can even seamlessly link our auditoriums and venues through satellite conferencing, enabling you to invite large numbers of delegates to one venue or connect delegates at up to 21 venues, sharing ideas, experiences and innovations on a massive, nationwide scale.
